Measles

Measles has now arrived in Hawke's Bay after spreading around NZ in recent months. Measles is a highly contagious disease and one in ten people who catch it will be admitted to hospital. The best protection against measles is immunisation. **Please ensure that your school's Immunisation Register is fully up to date.** You can contact your PHN for advice. <https://www.health.govt.nz/your-health/conditions-and-treatments/diseases-and-illnesses/measles>

Please phone your family doctor or Healthline on 0800 611 116 if you suspect you, or a family member, is displaying symptoms of measles.

How could I get infected?

The measles virus can be spread in the air breathed by an infected person. The virus can stay in the environment for up to 2 hours after the infected person has gone. The virus can also be spread by sharing eating utensils.

How do I protect myself and others?

Immunisation is the best way to prevent measles. In New Zealand immunisation is FREE from your doctor or nurse.

A Communicable Disease Nurse from the DHB will advise you if you have had contact with an infected person and what you should do to protect yourself and others.

To find out if you or a member of your family is fully immunised (had two doses of the MMR vaccine) you can check your Well Child / Tamariki Ora book. You can also ask your doctor or practice nurse, or Communicable Disease Nurse to help you find out.

Will I need to take time off work, school or preschool?

- Children or adults who are either suspected or confirmed measles cases will need to stay at home and away from work, preschool, school and public places and avoid people without immunity to measles until at least 5 days after the appearance of the rash.
- People without immunity to measles should stay at home because of the risk of catching the disease themselves and the risk of passing on the disease.
- Those who have been exposed to measles and are not immune will need to stay at home and away from work, preschool, school and public places and avoid people without immunity to measles for up to 14 days.
- People with immunity to measles can go anywhere as they would normally.

Pizza Fundraiser

Market Day

The Junior school has been learning about 'Our Body' and what fuels us to be amazing.

We are going to have a mini market on Wednesday 18th September.

Each junior class will be selling something delicious. The junior and senior school are invited to buy tickets from the office. One ticket will be \$1. If you bring \$3 to the office that will give you 3 tickets to spend on the day.

Some items may cost 1 ticket or 2 tickets. All the profit will go towards buying junior school resources for our classes.

**Bring your money to the office for Market Day
by Friday 13th September.**
