What's Been Happening

CONCUSSION WISE: Brain Injury Hawkes Bay

Each class participated in a 'Concussion Wise' session last week. They learnt what it felt like to be concussed by wearing a special pair of goggles. This was entertaining to watch as they struggled to do what they would normally find easy. This demonstrated the effects of a brain injury to them really well. It was great to hear the questions being asked and the students reciting what they need to do if they hit their heads. I hope they all shared their learning with you at home about this topic.

#ConcussionWise

Brain Injury HB delivered our #ConcussionWise programme to your children this term. This programme teaches what a concussion is, how you could get a concussion and the symptoms of concussion.

Each child was given a take home pack, we hope you have had a chance to look at this to see what your child has learnt.

Thank you so much Ebbett Park School for having us!!

For more information about concussions or the services Brain Injury HB provides please get in touch on 8786875 or educator@braininjury.co.nz

Thank you to all those who contributed to this very worthy cause.

Proud of our \$146 raised. Congratulations to Rm 9 for being the class that raised the most funds.

Classroom Champions

An amazing group of students keeping 'Excellence' and 'Pride' alive at Ebbett Park School.

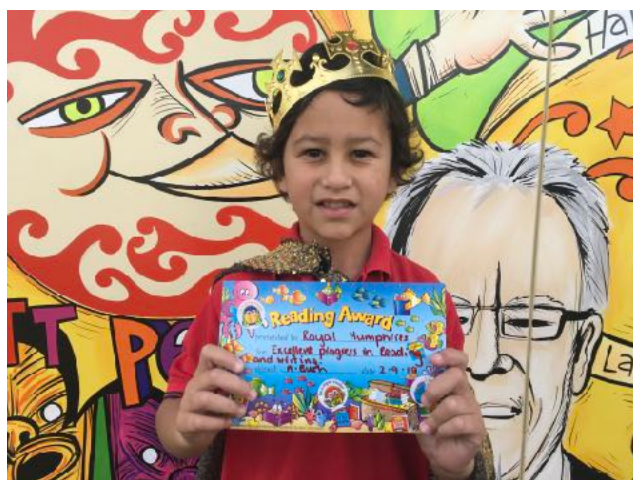

CONGRATULATIONS: Lilly-Rose, Tamati, AJ, Aryana, Lucus, Maora, Milan.

Reading Recovery Graduation

Congratulations to Royal.

Royal is graduating on Monday

Royal has moved 12 reading levels. He has worked extremely hard at home and school to achieve this. Royal can write over 60 high frequency writing words and is now able to write stories independently in class. Royal can be very proud of his achievements. Well done Royal.

COMMUNITY NOTICES

Measles

Measles has now arrived in Hawke's Bay after spreading around NZ in recent months.

Measles is a highly contagious disease and one in ten people who catch it will be admitted to hospital. The best protection against measles is immunisation. You can contact your PHN for advice. <https://www.health.govt.nz/your-health/conditions-and-treatments/diseases-and-illnesses/measles>

Please phone your family doctor or Healthline on 0800 611 116 if you suspect you, or a family member, is displaying symptoms of measles.

How could I get infected?

The measles virus can be spread in the air breathed by an infected person. The virus can stay in the environment for up to 2 hours after the infected person has gone. The virus can also be spread by sharing eating utensils.

How do I protect myself and others?

Immunisation is the best way to prevent measles. In New Zealand immunisation is FREE from your doctor or nurse.

A Communicable Disease Nurse from the DHB will advise you if you have had contact with an infected person and what you should do to protect yourself and others.

To find out if you or a member of your family is fully immunised (had two doses of the MMR vaccine) you can check your Well Child / Tamariki Ora book. You can also ask your doctor or practice nurse, or Communicable Disease Nurse to help you find out.

Will I need to take time off work, school or preschool?

- Children or adults who are either suspected or confirmed measles cases will need to stay at home and away from work, preschool, school and public places and avoid people without immunity to measles until at least 5 days after the appearance of the rash.
- People without immunity to measles should stay at home because of the risk of catching the disease themselves and the risk of passing on the disease.
- Those who have been exposed to measles and are not immune will need to stay at home and away from work, preschool, school and public places and avoid people without immunity to measles for up to 14 days.
- People with immunity to measles can go anywhere as they would normally.
